

# Real Time BoF LinuxCon Japan 2011

This session provides a forum to discuss Real Time Linux, share how you are using it, and learn from the experiences of others.

Please come prepared to discuss your experiences with and hear about:

- fields of use (for example: stock market, audio, robotics, industrial automation, consumer products)
- what works well
- what needs to improve
- what is missing and needs to be implemented
- experiences using real time, both successes and failures
- where the future Preempt RT patchset is heading
- status of mainlining, what is left to mainline
- possible future areas of development such as scheduler improvements, a deadline scheduler, resource allocation
- benchmarking tools and techniques
- performance measurement tools and techniques
- any other topic of interest to the attendees

Frank Rowand, Sony Network Entertainment

June 3, 2011

# Birds of a Feather (computing)

In computing, BoF (Birds of a Feather) can refer to:

A BoF session, an informal meet-up at conferences, where the attendees group together based on a shared interest and carry out discussions without any pre-planned agenda.

[http://en.wikipedia.org/wiki/Birds\\_of\\_a\\_Feather\\_%28computing%29](http://en.wikipedia.org/wiki/Birds_of_a_Feather_%28computing%29)

# Session Format

I would like for this to be an interactive session.

I would prefer to listen to other people talk.

But if no one else wants to talk, I can.....

# Choose what to talk about

PREEMPT\_RT Patch Size

Gleixner 2011 ELC 2011 Slides

What is coming up?

Deadline Scheduler

Tools - what has changed since 2008?

How can you contribute?

# status, roadmap

OSADL latest stable: 2.6.33.7.2-rt30

Paul Gortmaker created a broken out version

2.6.34.... (not stable, best effort)

2.6.38-rt ???

git-tip origin/rt/2.6.38 branch

most recent commit is: a021baac Mar 17, 2011

# PREEMPT\_RT Patch Size

\$ diffstat patch-2.6.15-rt21

806 files changed, 27449 insertions(+), 9372 deletions(-)

\$ diffstat 2.6.23-rt1

934 files changed, 30141 insertions(+), 9591 deletions(-)

397 patch files

\$ diffstat 2.6.26-rt1

842 files changed, 33384 insertions(+), 4985 deletions(-)

403 patch files

\$ diffstat 2.26.29.6-rt24

1715 files changed, 81837 insertions(+), 43653 deletions(-)

310 patch files

\$ diffstat patch-2.6.33.7.2-rt30

701 files changed, 15723 insertions(+), 4870 deletions(-)

Paul Gortmaker broken out version: 529 patch files

# Gleixner ELC 2011 Slides

... and trojan horses

# What is coming up?

13th real time linux workshop  
(call\_for\_papers)

October 20 - 22, 2011 (Thursday - Saturday)  
Prague, Czech Republic

Linux Kernel Summit

October 24 - 26 (Monday - Wednesday)

LinuxCon Europe /  
Embedded Linux Conference Europe

October 26 - 28 (Wednesday - Friday)

# Deadline Scheduler

???

# Tools:

## What has changed since ELC 2008 BoF?

ftrace, KernelShark

perf

cyclicttest enhancements

lpptest no longer in RT patch set

RealFeel-ETRI ?

Jung: ELC 2010 Measuring Responsiveness ...

Woerner test (serial port interrupt latency test)

web site gone

Senoner test (audio)

# What has not changed?

LRTB

Hourglass

# How can you contribute?

OSADL

???

mainline RT\_PREEMPT

???

test new RT releases
